

Environmental Policy

NEUTEQ provide a wide range of solutions for the Automotive Industry. We design, build and manufacture Microfinishing Machines and Automated Robotic Cells. Within our facility we have a fully supported Research & Development department, engineering a functional surface with our benchmark process and achieving efficiency through automation.

We aim to adopt a globally leading position in our chosen field of business.

Our environmental policy and environmental system scopes the activities listed above and associated environmental aspects.

- Neuteq is committed continual improvement of environmental performance and the environmental management system.
- Neuteq is committed to the prevention of pollution.
- Neuteq is committed to complying with relevant environmental legislation and other requirements relating to its environmental aspects.
- Neuteq is committed to educate, train and motivate employees to carry out tasks in an environmentally responsible manner.
- Neuteq will encourage environmental protection among suppliers and sub-contractors.
- This policy and associated environmental system provides the framework for the setting and achievement of our environmental objective/s.
- This Policy is communicated to all persons working for or on behalf of our organisation and is made available to the public via the company's website.
- All process quality activities performed are integral with & controlled by the associated '**Quality Policy**'.
